

ABID ATHANANDA AZIS

FULL-STACK WEB DEVELOPER | IT SOLUTIONS & SYSTEM INTEGRATION

Bekasi, West Java | abidathanandaazis@gmail.com | [Portofolio](#) | [linkedin](#) | [github.com](#) | +62-858-8008-4403

PROFESSIONAL SUMMARY

Results-driven Information Systems graduate (Summa Cum Laude, GPA 3.93) with a proven track record in manufacturing digitalization and enterprise-grade web applications. Highly proficient in PHP (Laravel Framework) and modern JavaScript ecosystems, specifically utilizing Inertia.js and Vue.js to build seamless Single-Page Applications (SPA) with robust data management capabilities. Experienced in managing Relational Database Management Systems (RDBMS), RESTful API integrations, and end-to-end IT support. A proactive problem-solver with strong analytical skills, ready to translate complex business workflows into efficient digital solutions.

WORK EXPERIENCE

Fullstack Web Developer Intern (MIS Dept) | PT. KAYABA INDONESIA Aug 2025 - Jan 2026

- Collaborated closely with cross-functional business units to digitize manual manufacturing workflows and build internal management systems (CSR, Packaging Standards, and Business Travel).
- Engineered core enterprise applications utilizing PHP, Laravel, Vue.js, and Inertia.js to ensure optimal frontend performance while maintaining robust server-side functionalities like edit and delete operations.
- Designed a dynamic Packaging Standards workflow featuring an active revision history that accommodates continuous user-initiated updates without rejecting the active document.
- Conducted rigorous internal testing and debugging using Postman to ensure seamless RESTful API operations and data accuracy across departments.
- Managed backend RDBMS operations and documented technical specifications following SDLC methodologies to deliver projects within strict deadlines.

Freelance Web Developer & IT Consultant | Independent Jan 2026 - present

- Developed web-based application programs for SMEs (Booking/Finance systems), focusing on interactive user interfaces using modern JS frameworks.
- Managed end-to-end IT support: hosting/domain setup, hardware/software troubleshooting, and basic network configurations.
- Served as a technical consultant for routine system maintenance, digital data management, and provided technical training for non-technical clients.

TECHNICAL SKILLS & COMPETENCIES

- Backend & Frameworks: PHP, Laravel Framework (Composer), Node.js environment.
- Frontend Development: Vue.js, Inertia.js, React.js, JavaScript, HTML5, CSS3, Tailwind/Bootstrap.
- Databases (RDBMS): MySQL, Microsoft SQL Server, PgAdmin 4, Database Optimization.
- API & Version Control: RESTful API Development, JSON Integration, Postman (Endpoint Documentation, Auth Testing), Git & GitHub.
- Networking & IT Support: LAN/WAN Configuration, Firewall Fundamentals, Troubleshooting, IT Helpdesk.
- Soft Skills: System Analysis & Design, Fast-Learner, Logical Problem Solving, Cross-departmental Communication.

EDUCATION & EXPERIENCE IN ORGANIZATIONS

Singaperbangsa Karawang University

Bachelor of Computer Science (S.Kom) | Graduated: March 2026 | GPA: 3.93 / 4.00 (Summa Cum Laude)

- Relevant Coursework: System Analysis & Design, Software Engineering, Web Services Applications, Business Web Development.
- Organization: Head of Business Department - Information Systems Student Association (2023).

CERTIFICATIONS, PUBLICATIONS & PROJECTS

Full Stack Developer Trainee (MSIB) | PT. Rakamin Kolektif Mandiri Sep - Dec 2024

- Developed a functional Full-Stack web application as a Final Project using Laravel architecture.
- Implemented comprehensive CRUD (Create, Read, Update, Delete) features and secure user authentication.
- Collaborated effectively with cross-functional teams utilizing Git/GitHub for version control and codebase management.

Junior Website Developer | BPPTIK - KOMINFO Sep 2023

- Competency certification in basic web development (HTML, CSS, Native PHP).
- Completed an independent website project with a satisfactory rating.

Junior Network Administrator | BPPTIK - KOMINFO Sep 2024

- Competency certification in basic network administration, encompassing LAN, WAN, and fundamental firewall concept.
- Equipped with practical knowledge in network troubleshooting and IT infrastructure maintenance.

Scientific Publication | Jurnal Rekayasa Komputasi Terapan March 2026

- Published a scientific article focusing on web-based workflow system design utilizing the Prototype method (Vol. 06 No. 01, Pages 75-81).
- Demonstrated strong analytical thinking, research capability, and structured technical documentation skills.

Digital Scoring & Tabulation System for Paskibra Competitions | Independent Project April 2026

- Engineered a comprehensive web-based management information system to automate complex scoring tabulations and manual administrative workflows for large-scale Paskibra competitions.
- Designed the calculation logic to process real-time scoring data from multiple judges, generating automated, accurate, and transparent final reports.
- Built utilizing modern Full-Stack infrastructure to ensure high availability and prevent data loss during live competition events.
