## FULL-STACK WEB DEVELOPER | BUSINESS PROCESS & INFORMATION SYSTEM DIGITIZATION

Bekasi, West Java | [abidathanandaazis@gmail.com](mailto:abidathanandaazis@gmail.com) | [Portofolio](#) | [linkedin](#) | [github.com](#) | +62-858-8008-4403

### PROFESSIONAL SUMMARY

Result-oriented Information Systems Graduate (S.Kom) from Singaperbangsa Karawang University, graduating Summa Cum Laude with a 3.93 GPA. Experienced as a Full-Stack Web Developer with a strong track record at PT Kayaba Indonesia, where I successfully digitized complex business processes by developing 3 major internal systems (CSR, Packaging Standards, & Business Travel). Specialist in Laravel ecosystem and RESTful API development, with a proven ability to translate intricate business requirements into scalable, functional web solutions. Disciplined, collaborative, and ready to contribute full-time to high-impact technical teams.

### TECHNICAL SKILLS

- Backend: PHP Laravel Framework (version 12), MySQL.
- Frontend: HTML5, CSS3, JavaScript, React JS, Vue.js, Bootstrap/Tailwind.
- Tools & Testing: Git & GitHub, Visual Studio Code, XAMPP/Laragon, Pg admin 4. Postman for API testing (GET, POST, PUT, DELETE), authentication testing (Sanctum/JWT), and endpoint documentation.
- Web Services/API: RESTful API development with Laravel, and JSON integration
- Soft Skills: Problem Solving, Team Communication, Time Management, Public Speaking

### WORK EXPERIENCE

#### Fullstack Web Developer Intern (MIS Dept) | PT. KAYABA INDONESIA Aug 2025 - Jan 2026

- Played an active role in the Management Information System (MIS) department to digitize the company's business processes using the Laravel framework.
- Packaging Document Approval System: Designed and built a digital submission and approval system for product packaging standardization, significantly reducing manual processing time.
- Business Travel Document System: Developed an application for centralized and easy tracking of employee business travel administration.
- CSR (Corporate Social Responsibility) System: Creating a platform for recording and reporting company social activities to facilitate management monitoring.
- Developing and integrating RESTful API to ensure smooth data communication between system modules.
- Conducting in-depth API performance and functionality testing using Postman to ensure endpoint security and accuracy before the production stage.

### PROJECTS & CERTIFICATIONS

#### Full Stack Developer Trainee (MSIB) | PT. Rakamin Kolektif Mandiri Sep - Dec 2024

- Developed a functional Full Stack web application as a Final Project using Laravel.
- Implemented CRUD (Create, Read, Update, Delete) features and user authentication.
- Collaborated using Git/GitHub for version control and team code management.

#### Junior Website Developer | BPPTIK - KOMINFO SEP 2023

- Competency certification in basic web development (HTML, CSS, Native PHP).
- Completed an independent website project with a satisfactory rating.

### EDUCATION & EXPERIENCE IN ORGANIZATIONS

#### Singaperbangsa Karawang University | Bachelor of Information Systems Sep 2022 – Present | GPA: 3.93 / 4.00

- Relevant Coursework: Web Services Applications, Business Web Development, Software Engineering, System Analysis & Design.
- Organization: Head of Business Department - Information Systems Student Association (2023).

# ABID ATHANANDA AZIS
